

Storyboard: Photos05

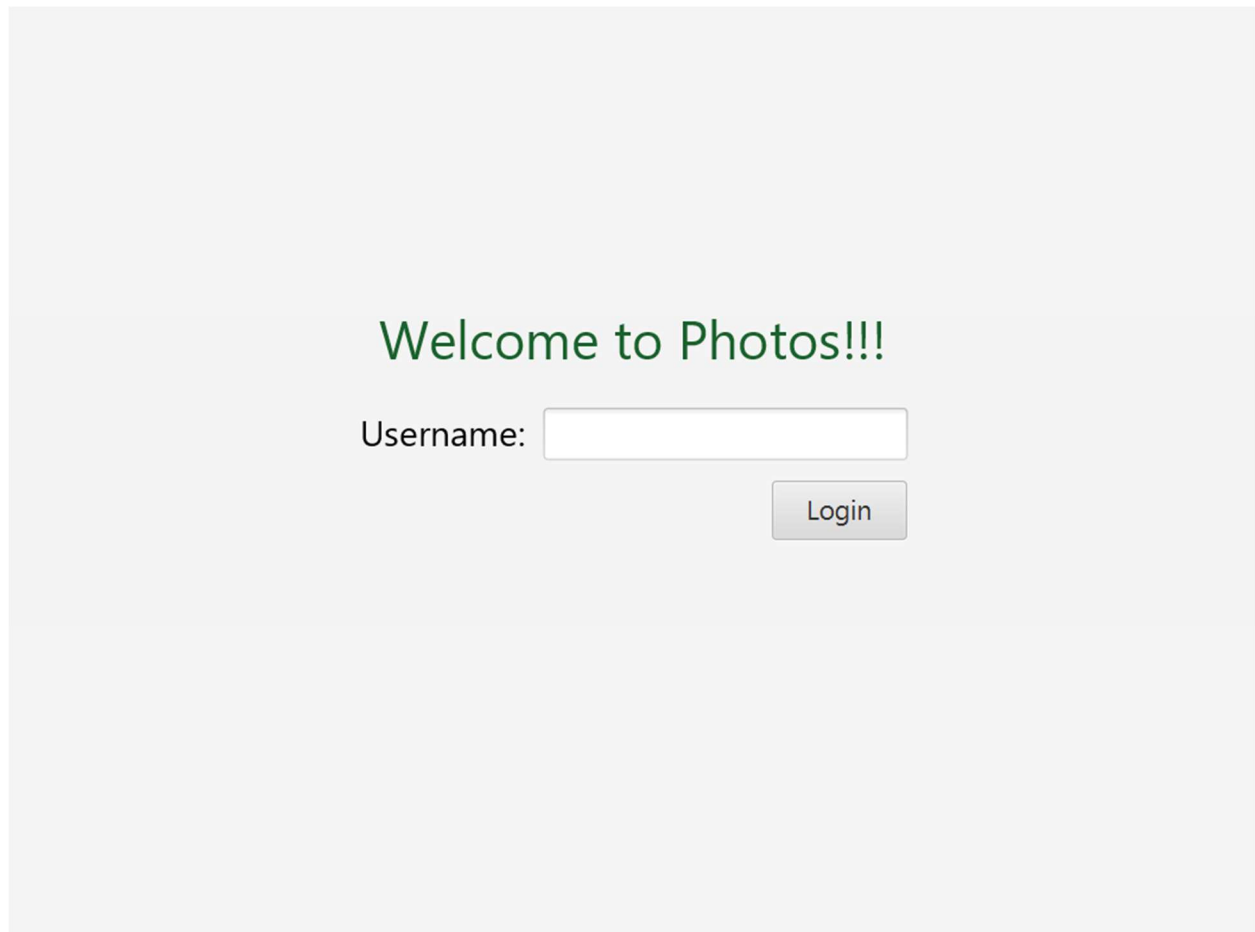

Members: Pavitra Patel & Huzaif Mansuri

Notes:

- At any point in time in the application if the user decides to logout, then the logout button is provided, and all the work will be saved.
- At any point in time in the application a user can close the application directly and they will be logged out automatically.
- Once a user is logged in they will be directed to View All Albums page; after that page, at any point a scene changes a user can use back button to go to previous scene.

Login Page:

A screenshot of a login page with a light gray background. In the center, the text "Welcome to Photos!!!" is displayed in a green, sans-serif font. Below this text, the label "Username:" is positioned to the left of a white rectangular input field. To the right of the input field is a gray rectangular button with the word "Login" in black text.

Welcome to Photos!!!

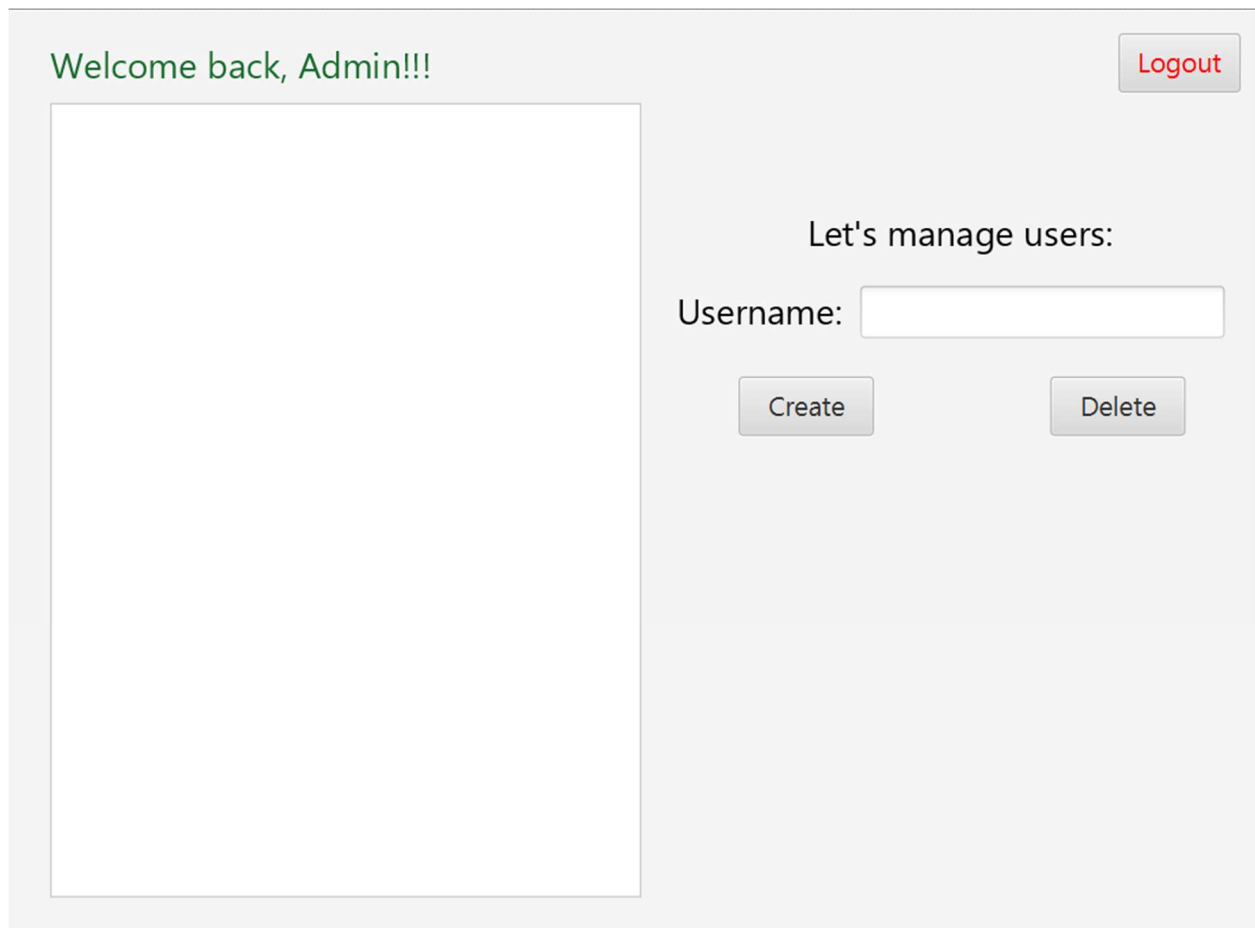

Username:

Login

Event Details:

- A user enters their username and clicks Login button to view their Albums.
- When an admin logs in with the username “admin”, the admin scene will be opened.

Admin Page:

The image shows a mockup of an Admin Page. It has a light gray background. In the top left, the text "Welcome back, Admin!!!" is displayed in a green font. In the top right, there is a "Logout" button with red text. On the left side, there is a large, empty white rectangular box. On the right side, the text "Let's manage users:" is centered. Below this text, there is a "Username:" label followed by a white input field. Underneath the input field, there are two buttons: "Create" and "Delete", both with gray backgrounds and black text.

Welcome back, Admin!!!

Logout

Let's manage users:

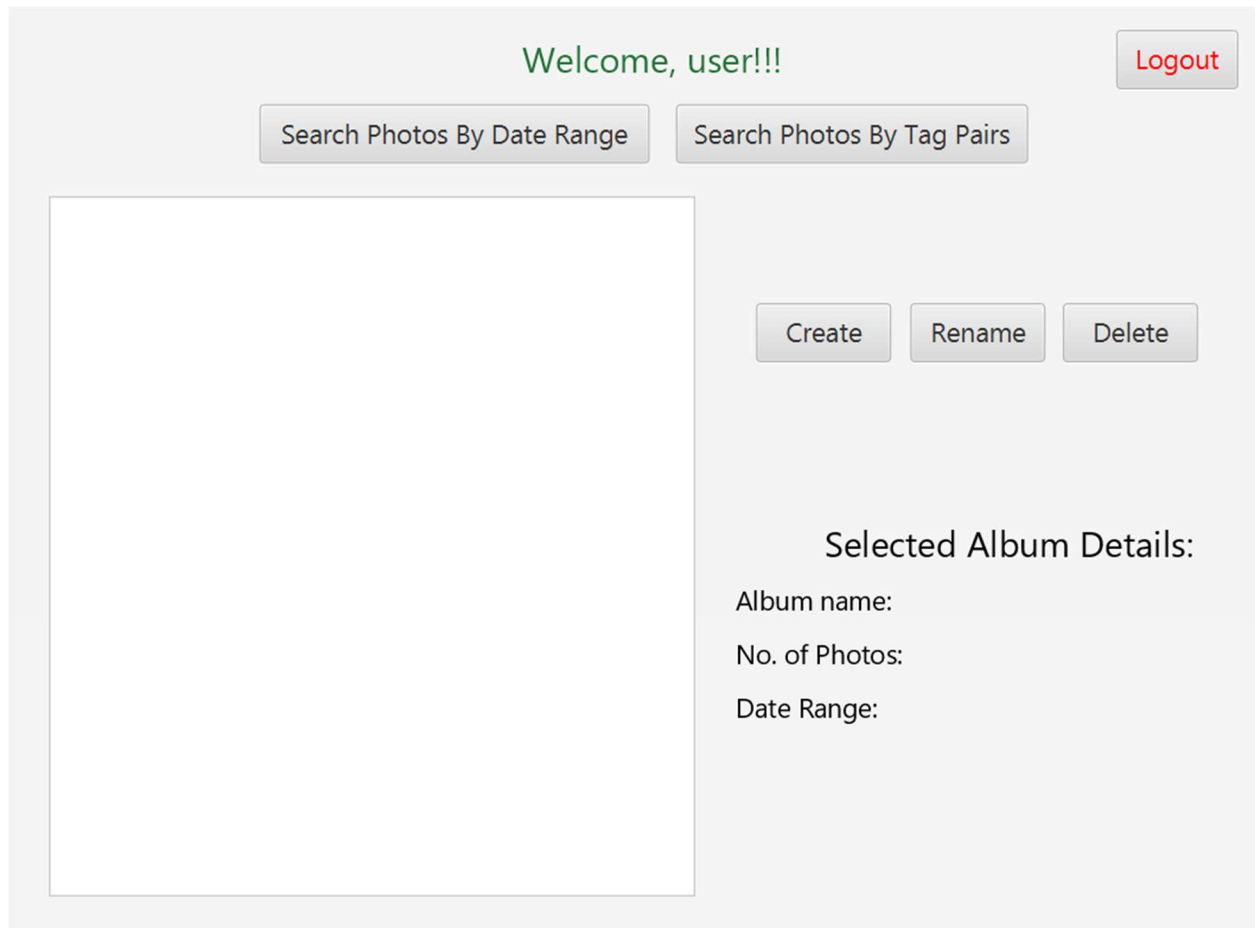

Username:

Create Delete

Event Details:

- The list of all users will be displayed in the List View.
- Create – Clicking Create button adds new user.
- Delete – Clicking Delete button deletes existing user.
- Logout – Clicking Logout button will log out the admin following the confirmation popup.

All Albums Page:

The image shows a web application interface for managing albums. At the top, there is a green welcome message 'Welcome, user!!!' and a red 'Logout' button. Below these are two search buttons: 'Search Photos By Date Range' and 'Search Photos By Tag Pairs'. A large empty rectangular box on the left is intended for displaying a list of albums. To the right of this box are three buttons: 'Create', 'Rename', and 'Delete'. Further down on the right is a section titled 'Selected Album Details:' which contains three labels: 'Album name:', 'No. of Photos:', and 'Date Range:'.

Event Details:

- The list of all albums will be displayed in the List View.
- Double clicking on album name in List View opens the album.
- Create – Clicking Create button creates new album.
- Rename – Clicking Rename button gives a popup of text entry with a Save button to rename that album.
- Delete – Clicking Delete button deletes an existing album.
- When the user clicks on any album in list view, Album Details such as its name, number of photos, and date range will be displayed.
- Search Photos By Date Range – Clicking that button gives a popup where a user inputs Date Range. The Search Results Page will open followed by the popup.
- Search Photos By Tag Pairs – Clicking that button gives a popup where a user inputs text entry. The Search Results Page will open followed by the popup.
- Logout – Clicking Logout button will log out the admin following the confirmation popup.

Open Album Page:

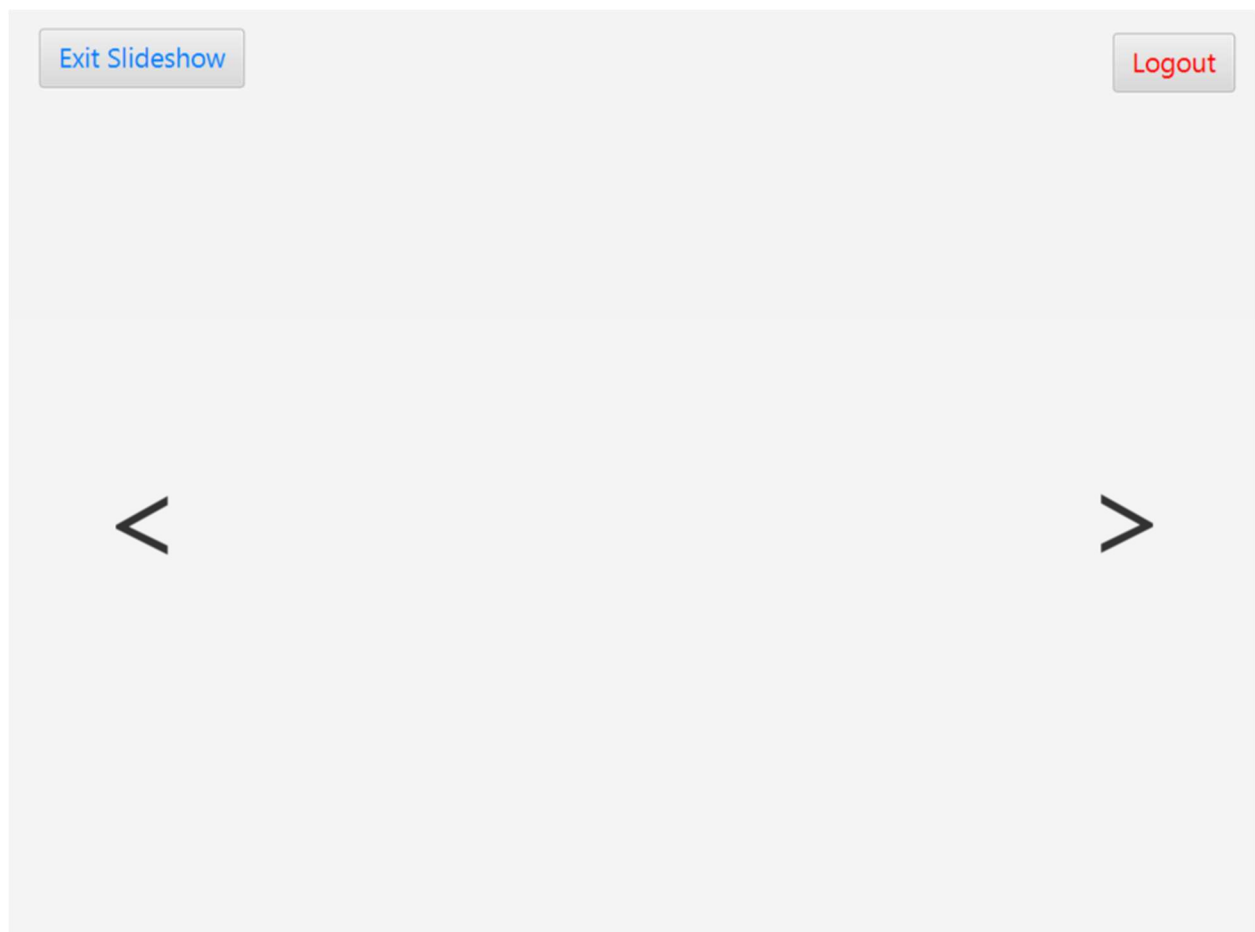

The screenshot shows a web interface for managing an album. At the top, there is a 'Back' button on the left, a green 'Welcome, user!!!' message in the center, and a 'Logout' button on the right. Below the welcome message, the page is divided into two main sections. On the left is a large, empty rectangular box. On the right, under the heading 'Selected Photo Details:', there is a large icon of a photo album. To the right of this icon are several controls: a dropdown menu, 'Move' and 'Copy' buttons, a 'Remove Photo' button, and a 'Caption/Re-caption' button. Below these are input fields for 'Caption:', 'Date/Time:', and 'Tags:'. At the bottom of the right section are 'Select Category:' with a dropdown, a 'Remove Tag' button, an 'Enter Value:' input field, and 'Add Tag' and 'Add Tag Category' buttons. At the bottom of the left section are 'Add Photo' and 'View Slideshow' buttons.

Event Details:

- The Thumbnail images of all photos in the opened album will be displayed in the List View.
- Add Photo – Clicking Add Photo button opens a popup where a user can add a new photo, set its caption, and add/remove tags.
- View Slideshow – Clicking View Slideshow buttons displays all images of that album.
- Move Photo – Selecting the album from dropdown and clicking Move Photo button moves the photo followed by confirmation popup.
- Copy Photo – Selecting the album from dropdown and clicking Copy Photo button copies the photo followed by confirmation popup.
- Remove Photo – Clicking Remove Photo button removes the photo followed by a confirmation popup.
- Caption/Re-caption – Clicking Caption/Re-caption button allows user to enter a text entry in a popup that updates the Caption of that photo.
- Selecting a photo will display photo, caption, date/time, and tags for that photo.

- All the current tags for a photo will be displayed in the List View.
- Add Category – Clicking Add Category button allows user to enter a text entry in a popup that adds new tag category.
- Add Tag – Selecting a Category from the drop down and entering its value allows user to add a tag in the list view.
- Remove Tag – Selecting a Tag from List View and clicking Remove Tag button removes the tag from the list view followed by a confirmation popup.
- Back – Clicking Back buttons takes a user to their all-albums page.
- Logout – Clicking Logout button will log out the admin following the confirmation popup.

View Slideshow Page:

Event Details:

- Exit Slideshow – Clicking that button exits the slideshow and takes back to Open Album Page.
- “<” – Clicking “<” button displays previous image of that album.
- “>” – Clicking “>” button displays next image of that album.

Search Results Page:

The screenshot shows a web interface for search results. At the top, there is a 'Back' button on the left and a 'Logout' button on the right. In the center, it says 'Welcome, user!!!'. Below this, there are two buttons: 'Search Photos By Date Range' and 'Search Photos By Tag Pairs'. The main area of the page is a large, empty white rectangle, presumably for displaying search results. At the bottom center, there is a button labeled 'Create Album for Search Results'.

Event Details:

- Search Photos By Date Range – Clicking that button gives a popup where a user inputs Date Range. The Search Results Page will open followed by the popup.
- Search Photos By Tag Pairs – Clicking that button gives a popup where a user inputs text entry. The Search Results Page will open followed by the popup.
- The list of all photos that match the search entry will be displayed in the middle of the page.
- Back – Clicking Back buttons takes a user to their all-albums page.
- Logout – Clicking Logout button will log out the admin following the confirmation popup.
